## CAREER OBJECTIVE

Motivated and detail-oriented Computer Science graduate seeking an entry-level Python Full Stack Developer role to apply my skills in Python, Django, React.js, JavaScript, HTML, CSS, and MySQL. Eager to build scalable web applications, develop efficient REST APIs, solve real-world problems, and continuously learn modern technologies while contributing to the growth of the organizations

## SKILLS

**Frontend Development:** React.js, JavaScript (ES6+), Bootstrap 5, HTML5, CSS3, Responsive Design.

**Backend Development:** Python, Django, Django REST Framework (DRF), RESTful APIs, JWT Authentication, MVC/MVT Architecture.

**Databases:** MySQL, Big Query, SQLite, Database Design.

**Core Concepts:** Data Structures & Algorithms, OOP, API Integration, Debugging, Generative AI.

**Tools & Deployment:** Git, GitHub, Postman, VS Code, Render, Vercel.

## EXPERIENCE

**Full Stack Python Developer Apprentice | BDreamz Global Solutions Private Limited** *Feb 2026 – Aug 2026*

- Assisted in the development of web applications using Python frameworks such as Django. Supported both front-end (HTML, CSS, JavaScript) and back-end (Python-based services) development activities.
- Wrote clean, maintainable, and efficient Python code under supervision. Collaborated with the development team to design, develop, test, and deploy scalable applications.
- Worked with databases (MySQL) and assisted in REST API development and integration. Participated in debugging, troubleshooting, and performance optimization of Python applications
- Learned and applied best practices in Python development, version control (Git), and software design principles.

## KEY PROJECTS

**Hotel Room Booking Application | React.js, Python, Django REST Framework, MySQL**

- Built RESTful APIs for room management, availability, and booking operations, including database models for users, rooms, and occupied dates.
- Built an interactive Single Page Application (SPA) with React.js, dynamic routing, and Axios state management to reduce page load latency.
- Integrated and deployed the React frontend with the Django backend, tested APIs using Postman, and resolved CORS and authentication issues.

**AI Duplicate Ticket Detector– Support Desk | React.js, Python, Django REST Framework, MySQL**

- Built a Django REST Framework and OpenAI API-powered support ticket system using AI text embeddings and cosine similarity, cutting duplicate ticket submissions by an estimated 30–40% in testing across a sample ticket dataset.
- Implemented semantic search with sentence-transformer embeddings and a debounced React UI, surfacing similar tickets in under 1 second as the user types.
- Designed an admin clustering dashboard grouping related tickets by semantic meaning, improving visibility into trending support issues.

## EDUCATION

**KLE Society's SSMS College, Athani** *June 2022 – Jul 2025*

B.Sc. in Computer Science CGPA:7.39

**JE Society's JA PU College, Athani** *July 2020 – May 2022*

Pre-University Course (PUC) 65.16%

## CERTIFICATIONS

- Besant Technologies– Python Full Stack Professional Certificate
- HackerRank – Python, JavaScript Certificate
